

I am a resident of the local community of Bells, Tn. I am listening to a Memphis station (94.9), and my radio does not turn away from the station. I am raising 4 boys, one of which is a teenager. He loves to listen to KLove and sings along. Please keep KLove on air as it is now. It is a real blessing to many more people than you will ever know. My husband never listened to christian radio until he started to work in Memphis and found KLove. Now, he even plays it online at his work enviroment so others can listen to it also.

If there was any other programming, KLove would not be same, and many, many mothers, fathers, toddlers and teenagers would suffer from the decision just from small part of the world. Please keep KLove the same as it is now.
